CONTENTS

OF THE

26th YEAR OF THE ENGLISH EDITION.

	Pages.	Numbers of the decimal classification.
No. 1. — JANUARY 1949.		
I. a) **Mechanisation of the maintenance and renewal of the permanent way.** b) **Recent improvements relating to reinforced concrete and prestressed sleepers. Results obtained.** c) **Recovery and strengthening of metal bridges that have reached the theoretical limit of safety.** (Question I, Enlarged Meeting of the Permanent Commission, Lisbon, 1949) : Report, Question I, a) *(Belgium and Colony, Bulgaria, Denmark, Spain, Finland, France and Colonies, Greece, Hungary, Italy, Luxemburg, Norway, Netherlands and Colonies, Poland, Portugal and Colonies, Rumania, Sweden, Switzerland, Czechoslovakia, Turkey and Jugoslavia)*, by L. MUCHERIE	1	625 .13, 625 .142 .4 & 625 .17
II. **New colour light signalling** adopted by the Belgian National Railways **for electrified lines** fitted with automatic signalling or interlocked block, by Ir. E.-J.-F. DERIJCKERE	45	**656** .253 (493)
III. **Intensive track renewal work**, by M. PIROLLE and M. FASSIAUX . . .	67	**625** .173 (44)
IV. **Individual axle drive.** Mechanical systems used on electric locomotives and railcars, with an indication of the results obtained in service on railways of all kinds. *Chapter VII.* — **Rack railways,** with some notes on tramways *(to be continued)*, by Ad.-M. HUG	71	**621** .337
V. OFFICIAL INFORMATION issued by the Permanent Commission of the International Railway Congress Association : List of questions for discussion at the Enlarged Meeting of the Permanent Commission (Lisbon, 1949) with the names of the Reporters	82	**385** .(06 .111
VI. MONTHLY BIBLIOGRAPHY OF RAILWAYS	1	**016** .385
No. 2. — FEBRUARY 1949.		
I. a) **Mechanisation of the maintenance and renewal of the permanent way.** b) **Recent improvements relating to reinforced concrete and prestressed sleepers. Results obtained.** c) **Recovery and strengthening of metal bridges that have reached the theoretical limit of safety.** (Question I, Enlarged Meeting of the Permanent Commission, Lisbon, 1949) : Report, Question I, c) *(Belgium and Colony, Bulgaria, Denmark, Spain, Finland, France and Colonies, Greece, Hungary, Italy, Luxemburg, Norway, Netherlands and Colonies, Poland, Portugal and Colonies, Rumania, Sweden, Switzerland, Czechoslovakia, Turkey and Jugoslavia)*, by M. CASSÉ	85	625 .13, 625 .142 .4 & 625 .17
II. **New flat wagons for Swiss Federal Railways**	141	**625** .241 (494)

No. 2. — FEBRUARY 1949. *(Continued.)*	Pages.	Numbers of the decimal classificatio
III. Official information issued by the Permanent Commission of the International Railway Congress Association :		
Meeting held by the Permanent Commission in Brussels, on the 4th December 1948	144	385 (06 .111
Appendix : List of Members of the Permanent Commission (4th December 1948)	146	385. (06 .111
IV. New books and publications :		
The Universal Directory of Railway Officials and Railway Year Book, 1948-1949	149	385. (02
Le Ferrovie Italiane dello Stato rinascono. La Ricostruzione fino all' aprile 1948 (*The Reconstruction of the Italian State Railways.* — Progress as at the end of April 1948)	149	385. (09 (45)
La Régie des Chemins de fer des Territoires Occupés, 1923-1924 (*The Management of the Railways in Occupied Territory, 1923-1924*), by H. Bréaud	151	341 .324 (43)
V. Monthly bibliography of railways	9	016 .385

No. 3. — MARCH 1949.		
I. a) **Mechanisation of the maintenance and renewal of the permanent way. b) Recent improvements relating to reinforced concrete and prestressed concrete sleepers. Results obtained. c) Recovery and strengthening of metal bridges that have reached the theoretical limit of safety.** (Question I, Enlarged Meeting of the Permanent Commission, Lisbon, 1949) : Report, Question I, b) (*Belgium and Colony, Bulgaria, Denmark, Spain, Finland, France and Colonies, Greece, Hungary, Italy, Luxemburg, Norway, Netherlands and Colonies, Poland, Portugal and Colonies, Rumania, Sweden, Switzerland, Czechoslovakia, Turkey and Jugoslavia*), by M. Gonon	153	625 .13, 625 .142 .4 & 625
II. **Transport of miscellaneous goods. Concentration in a certain number of selected centres (stations) of miscellaneous traffic, transport by rail between centre-stations, by road or rail between the originating point and the nearest centre-station, and also to the last centre-station near the destination. Interest of the scheme for the conveyance of goods traffic. Organisation of the station-centres and of the collection and delivery services. Financial results of the scheme.** (Question III, Enlarged Meeting of the Permanent Commission, Lisbon 1949) :		
Report, Question III (*America, Great Britain, Dominions, Protectorates and Colonies, Burma, China, Egypt, India and Pakistan*), by P. H. Sarma . .	209	656 .225 & 656 .2

	Pages.	Numbers of the decimal classification.
No. 4. — APRIL 1949.		
I. **Transport of miscellaneous goods. Concentration in a certain number of selected centres (stations) of miscellaneous traffic, transport by rail between centre-stations, by road or rail between the originating point and the nearest centre-station, and also to the last centre-station near the destination. Interest of the scheme for the conveyance of goods traffic. Organisation of the station-centres and of the collection and delivery services. Financial results of the scheme.** (Question III, Enlarged Meeting of the Permanent Commission, Lisbon, 1949) :		
Report, Question III, (*Austria, Belgium and Colony, Bulgaria, Denmark, Spain, Finland, France and Colonies, Greece, Hungary, Italy, Luxemburg, Netherlands and Colonies, Norway, Poland, Portugal and Colonies, Rumania, Sweden, Switzerland, Czechoslovakia, Turkey and Yugoslavia*), by G. MOULART	229	656 .225 & 656 .261
II. **Electric locomotives for fast trains (75 m.p.h. and over). Discussion of adopted and projected types. 1) Arrangement of the axles. 2) Type of axle drive : a) motor suspended from the nose; b) flexible transmission. 3) Electric motor characteristics. 4) Braking.** *(Question II, Enlarged Meeting of the Permanent Commission, Lisbon, 1949).*		
Report, Question II, (*Austria, Belgium and Colony, Bulgaria, Denmark, Spain, Finland, France and Colonies, Greece, Hungary, Italy, Luxemburg, Netherlands and Colonies, Norway, Poland, Portugal and Colonies, Rumania, Sweden, Switzerland, Czechoslovakia, Turkey and Yugoslavia*), by Dr. E. MEYER and Ch. STHIOUL	271	621 .335
III. **Actual state of Railway electrification** in the world	327	621 .33
IV. MONTHLY BIBLIOGRAPHY OF RAILWAYS	15	016 .385
No. 5. — MAY 1949.		
I. **Special accounts summing up the Reports on the questions for discussion at the Enlarged Meeting of the Permanent Commission of the International Railway Congress Association** (Lisbon, 1949) :		
Section I. — WAY AND WORKS.		
QUESTION I. — a) **Mechanisation of the maintenance and renewal of the permanent way.** b) **Recent improvements relating to reinforced concrete and prestressed concrete sleepers. Results obtained.** c)**Recovery and strengthening of metal bridges that have reached the theoretical limit of safety,** by J.-C. BOGARIM	333	625 .13, 625 .142 .4 & 625 .17
Section II. — LOCOMOTIVES AND ROLLING STOCK.		
QUESTION II. — **Electric locomotives for fast trains (75 m.p.h. and over). Discussion of adopted and projected types. 1. Arrangement of the axles. 2. Type of axle drive : a) motor suspended from the nose; b) flexible transmission. 3. Electric motor characteristics. 4. Braking,** by A. d'ARBELA	351	621 .335

No. 9. — SEPTEMBER 1949.		
I. ENLARGED MEETING OF THE PERMANENT COMMISSION OF THE INTERNATIONAL RAILWAY CONGRESS ASSOCIATION AT LISBON (1st to 4th June 1949) :		
Summary of Sectional Proceedings :		
SECTION I : WAY AND WORKS.		
Question I : a) **Mechanisation of the maintenance and renewal of the permanent way;**		
b) **Recent improvements relating to reinforced concrete and prestressed concrete sleepers. Results obtained.**		
c) **Recovery and strengthening of metal bridges that have reached the theoretical limit of safety**	637	625 .13, 625 .142 . & 625
SECTION II : LOCOMOTIVES AND ROLLING STOCK.		
Question II : **Electric locomotives for fast trains (75 m.p.h. and over).** — Discussion of adopted and projected types. 1) Arrangement of the axles. 2) Type of axle drive : a) motor suspended from the nose; b) flexible transmission. 3) Electric motor characteristics. 4) Braking	652	**621** .335
SECTION III : WORKING.		
Question III : **Transport of miscellaneous goods.** Concentration in a certain number of selected centres (stations) of miscellaneous traffic, transport by rail between centre-stations, by road or rail between the originating point and the nearest centre-station, and also to the last centre-station near the destination. Interest of the scheme for the conveyance of goods traffic. Organisation of the station-centres and of the collection and delivery services. Financial results of the scheme	658	**656** .225 & **656**
Plenary meeting held on the 4th June 1949. Proceedings	667	
Appendix : **Final Summaries :**		
Question I	668	625 .13, 625 .142 . & 625
Question II	671	**621** .335
Question III	672	**656** .225 & **656**

No. 9. — SEPTEMBER 1949. *(Continued.)*	Pages.	Numbers of the decimal classification.
